

COMMUNITY LEADERSHIP

Specialization: Community and Extension Education

Who **leads** the charge?

**WE'RE
THE
ONES.**

WHO STEPS UP AND ADDRESSES MAJOR DECISIONS IN OUR COMMUNITIES AND DAILY LIVES, WHETHER IT'S A GLOBAL OR A LOCAL COMMUNITY, OR NATIONAL OR STATE LEGISLATION?

We're critical thinkers with big hearts. We're leaders who create positive change that strengthens individuals, families and communities.

If you're interested in a career in education or at a nonprofit organization, this might be the major for you. We prepare Extension educators and leaders to influence positive change in their communities. The Ohio State University was founded with the principle that education and opportunities should be extended to individuals, and we fulfill this mission with the work of our graduates. You'll complete coursework in program and people development, and in planning and leadership. You'll gain the skills necessary to work with and develop people of all ages into agents of change.

SO WHAT WILL YOU DO?

Visit us, experience Ohio State for a day and begin your journey!
